Add WISH LIST to shopping cart

Edit WISH LIST

In the QUICK ORDER section, orders can be added as a file upload to speed up the ordering process. The upload is done by drag-and-drop.

The screenshot shows the EVOC Fastorder interface. At the top, there's a navigation bar with the EVOC logo and categories: BIKE, SNOW, PHOTO, TRAVEL, PROTECTION WEAR, ACCESSORIES, and TEAM WEAR. Below this is a sub-navigation bar with links: Dashboard, Company, Statistic, Orders, Wish lists, and Fastorder (which is highlighted). A red box highlights the 'Fastorder' link. To the right of the navigation bar, there's a user profile 'Maxi Ortmeier' and a shopping cart icon with '1' item.

The main content area is titled 'Fast order file upload' with subtext 'CSV, XLS, XLSX'. It features a 'Choose a file' section with a dashed border and the text 'or drag the file from your desktop here'. Below this is an 'Extended configuration' section, also highlighted with a red box. It contains three input fields: 'Product number column' (value: 1), 'Quantity column' (value: 2), and 'Delimiter' (value: ,). There's also an 'Enclosure' dropdown menu and a checkbox labeled 'The file includes a row with headlines' which is checked.

Below the configuration section is a 'Fast order template file download' link. At the bottom, there's a table with three columns: 'Product', 'Product number', and 'Quantity'. The 'Product' column has a 'Choose product' dropdown. The 'Product number' column has a 'Product number' input field. The 'Quantity' column has a 'Quantity' input field. To the right of the table are two buttons: 'Add item to wish list' and 'ADD TO BASKET'.

Annotations with red arrows point from the text blocks to specific parts of the interface: one points to the 'Fastorder' link, another to the 'Extended configuration' section, and two others point to the table columns.

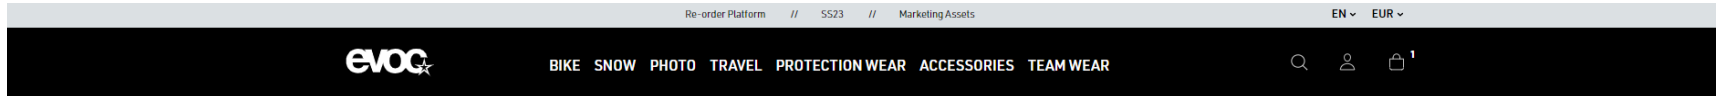

Export style sheet

Overview of products after upload: Here you can correct the number if necessary. Please note that only currently available products are taken over.

If you expand the "Advanced settings" area, you can adjust the settings to your individual documents.

- In which column is the article number
- In which column is the number
- Specify whether the document contains headers or a header area.
